LIVE AT HOME AND FEED YOURSELF

Columbia, May 3.—A gigantic "Live at Home" and "Feed Yourself" movement those behind it claim will revolutionize the farming industry in the South is being launched among the farmers of the cotton belt. The South Carolina Cotton Association is planning to father the movement in this State.

From the headquarters in this city yesterday the first gun in the big drive was fired when a letter went to the county chairman of each county cotton association asking if he would take the initiative in the campaign in his county. There is a cotton association in every county in the State.

The plan of the movement is said to be to try to get every farmer in the State to sign a pledge solemnly binding himself to discontinue sending orders to the West for grain, hay and foodstuffs after this season. Each citizen who signs the pledge also pledges himself to use every effort to get all other farmers to sign it.

Regarding the movement a statement given out by J. Skottows Wamaker, chairman of the central committee of the South Carolina Cotton Association, says:

"In the various sections of the cotton belt, farmers are signing pledges solemnly binding themselves to discontinue sending orders to the West for grain hay and foodstuffs after this season, to use every effort to discontinue this practice and urging all farmers to enlist in the movement. We have asked the chairmen of the various county cotton associations in this State if they will have such pledges circulated among the farmers of their respective counties.

"We believe that this movement will revolutionize the farming industry in the South and will mean more for the South than any movement that has been launched in this section in a decade. There is no reason why the South should plant all of its land in cotton, sell same at a small profit, if indeed it is sold at a profit, and then turn around and send all of its money out West, for foodstuffs, right at home.

"If the farmer raises his own foodstuffs, he will have to curtail his cotton acreage. This means a very high price for cotton. The high price will mean that he will get as much for his short crop as he would have gotten for the large crop and in addition he

CALOMEL ROBBED OF NAUSEA AND SALIVATION

Medical Virtues Retained and Improved—Unpleasant and Dangerous Qualities Removed—New Variety, Called Calotabs, Is Great Favorite With Physicians and Druggists

The latest triumph of modern pharmacy is the new nauseless calomel known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache, and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the only successful remedy but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of all medicines to take. One Calotab on the tongue at bedtime, with a swallow of water, that's all. No salts, no griping, no nausea, no danger of salivation. A good night's sleep and the next morning you are feeling fine, with a clean liver and a big appetite. Eat what you please.

Calotabs are sold only in original, sealed packages, price thirty-five cents. Your druggist offers to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—(adv.)

will have fed himself. The money he gets from his cotton then will be clear profit. He will not have to send it out West immediately for food.

"The experience the cotton farmer has undergone during the past six months ought to make him a ready signer to these pledges. He has been forced to pay the West for foodstuffs he could have raised himself and instead of their being a big surplus of cotton on hand there would have been much higher and the farmer would have made a profit on his crop last year instead of having lost heavily."

BELGIUM FEELS SHE HAS BEEN SHLIGHTEED

Malmédy Only Territorial Claim Mentioned in Treaty

BELGIAN PREMIER IN PARIS

Over Half of \$500,000,000 Indemnity Merely Placed to Belgium's Credit.

Paris, May 2.—(By the Associated Press).—The Belgian delegation to the peace conference is expressing dissatisfaction over the terms of the

preliminaries for peace as they affect Belgium. None of the territorial claims of Belgium have been granted, except that for Malmédy, in Rhenish Prussia, a short distance south of Aix La Chapelle, the population of which before the war was largely Walloon. Malmédy will revert to Belgium. The territory on the left bank of the Scheldt river and Maastricht and the Limbourg peninsula are not mentioned in the terms.

Of the \$500,000,000 already mentioned as an immediate financial indemnity for Belgium, more than half the amount has merely been placed to Belgium's credit in Allied countries as part payment of war loans. No provision has been made for the re-

call by Germany of the six billion marks which were left in Belgium, and now are lying in Belgium banks and vaults, bearing no interest and unproductive, as the circulation of the mark in Belgium is not permitted. "The amount of six billion marks represents virtually the total Belgium liquid wealth assets," said a member of the Belgian delegation today. M. Delcroix, the Belgian premier, arrived in Paris this morning, bringing a message of protest from the Belgian Senate. He conferred with M. Hymans, of the Belgian peace delegation, who is expected to appear before the council of three to make representations concerning the terms granted Belgium.

COMING HOME WHEN TREATY IS SIGNED

Army of Occupation Will Be Moved Quickly

THIS IS PRESIDENT'S PLAN

March Making Every Effort to Speed Up Demobilization in This Country.

Washington, May 2.—Determination of President Wilson, indicated in press advices from Paris, that no American troops shall continue on German soil for a longer period after the signing of the peace treaty than may be necessary to embark them for home, is borne out by present plans of the War Department which contemplate the return of the entire American expeditionary forces by September. Because of this Gen. March, chief of staff, is making every effort to speed up the demobilization in this country.

An official announcement issued today as to the accumulation of surplus clothing for the troops stated that the estimates were based on "troop withdrawals to be completed in September." The statement also said that "if an army of occupation is maintained after September, a portion of this surplus will be needed."

This computation was taken to reflect exactly the present information of the department as to future troop movement.

The September date represents estimates by embarkation officials as to the maximum possible speed in withdrawing the entire force in Europe, including the troops holding the Coblenz bridgehead sector on the Rhine. If anything, officers anticipated that the movement will be accelerated rather than retarded. The schedule has been indicated monthly movement of 450,000 men, the best predictions of Gen. March and his aides bid fair, it was said, to be more than realized.

AH—MY FRIEND—

SEE the ridges around the edge of that crisp dollar? Well, you see I turn it right against its brother from the mint here and the little ridges act like little cogs that propel the welfare of my finance.

Then the machinery is going. I take them to the best bank in the vicinity which is the Home Bank and Trust Co. and give them to the cashier, who relieves me of any further bother.

The fellow must be a pretty nice fellow because, at the end of every year there is a whole lot of money in that bank that I never put in that I can remember of.

HOME BANK & TRUST CO.

NOTICE.

All persons having claims against the Estate of Henry Laurens Wilson, deceased, will present them duly attested and all persons owing said estate will make payment to

Janie M. Wilson,
